RATIO OF TECHNICAL OFFICIALS TO COMPETITIVE SWIMMERS

We're always looking to develop more officials so that we can continue to deliver fantastic swimming meets for our members. And we've decided that the fairest way to do this is to introduce a ratio of competitive swimmers to Technical Officials as it will mean that all our Clubs will be able to contribute to running meets within our region. This ratio also means that our current small group of officials would not be required to be involved in almost every meet that appears on our annual calendar.

The ratio is as follows –

- 1 – 4 competitive swimmers – 1 official
- 5 – 10 competitive swimmers – 2 officials
- 11 – 14 competitive swimmers – 3 officials
- 15 + competitive swimmers – 4+ officials

As at 30 June 2016, the ratio looked like this -
